

National Cyber Security Alliance Sponsors Cyber Security Training Seminar for Small Business

Fairfax, Virginia Cyber Security Training Seminar Reflects Local and National Activities Driving Online Safety Education and Awareness for National Cyber Security Awareness Month

What:

The National Cyber Security Alliance (NCSA) is sponsoring a free, half-day cyber security training seminar for small business. NCSA is a not-for-profit, public-private partnership focused on driving awareness and promoting education of cyber security within small business, home user, and education audiences. This seminar is one of a number of events being held this October as part of National Cyber Security Awareness Month.

The U.S. Department of Commerce's National Institute of Standards and Technology (NIST) will conduct the training. Hosted by the Fairfax County Chamber of Commerce, the seminar will outline key issues for improving an organizations' cyber security posture, including:

- How to identify multiple types of data security vulnerabilities
- Understand how sensitive business information can be exposed through information security breaches
- Share practical steps to protecting business from cyber security threats
- Detail best practices for evaluating, selecting, and using security vendors and consultants based on business requirements

When/Where:

Thursday, October 28, 2004
Fairfax County Chamber of Commerce
8230 Old Courthouse Road, Suite 350
Vienna, VA 22182-3853
